

SRI EDUCATION

# SRI Afterschool Science Forum

FOUR FORUMS ACROSS CALIFORNIA • FOCUSED ON AFTERSCHOOL SCIENCE

We are inviting thought leaders from the afterschool and informal science fields to:

- Discuss important research findings from the first comprehensive multi-year study of science education in California's state-funded afterschool programs
- Generate implications of these research findings for practice, policy, funding, and program support
- Shape an agenda for the future of afterschool science

For more information on the forums, please visit:
