

2019

California

EXPANDED

LEARNING SUMMITS

The California Department of Education's Expanded Learning Division (CDE-EXLD), in partnership with the System of Support for Expanded Learning (SSEL) and the California AfterSchool Network (CAN), invite all K-12 stakeholders to attend the 2019 California Expanded Learning Summits.

The Summits welcome After School Education and Safety (ASES) and 21st Century Community Learning Centers (21st CCLC) program grantee staff, stakeholders, partners, and all K-12 administrators, leaders and representatives for an informative and uplifting day.

The 2019 California Expanded Learning Summits will host a series of workshops presented by local programs and Expanded Learning champions from each Summit's regional area. The Summits will also provide an opportunity to network and meet others from across the K-12/Expanded Learning ecosystem.
