

ELO-P DATA SNACKS

"Bite-sized" data showcasing ELO-P's impact across California.

In 2021, Governor Gavin Newsom and the Legislature established the Expanded Learning Opportunity Program (ELO-P), which provides ongoing state funding of \$4 billion (as of Fiscal Year 24-25) to school districts and charter schools for Expanded Learning programs. California's students and families have benefited from this investment, however, statewide impact data is not yet available. The Research Evaluation and Strategy Committee (RESC) convened by the California Department of Education, Expanded Learning Division (CDE EXLD) in partnership with the California AfterSchool Network (CAN), gathered a diverse group of interest holders that came together to identify and collect existing data, and elevate stories of impact, thus the ELO-P Data Snacks were born.

ELO-P IS A GATEWAY TO INCREASED ACCESS & QUALITY

2022-2023 enrollment data from EdData.org shows that 3.3 million students in California are funded as "unduplicated pupils." An unduplicated pupil is defined as a student enrolled in a school district or charter school who is classified as an English learner, eligible for a free or reduced-price meal, or is a foster youth. A school's unduplicated pupil percentage affects how much funding they receive for ELO-P and other funding streams designed to promote equity and access to high quality opportunities for youth.

REGION 6: Amador, Calaveras, San Joaquin, Stanislaus, and Tuolumne Counties

INVESTING IN QUALITY PROGRAMMING: STOCKTON

At Stockton Unified School District within San Joaquin County, more than **80%** of students receive free and reduced-priced meals, special education services, or additional support for English Learners.

"I am personally grateful for all the funding that has begun to filter into our [Expanded Learning programs] with ELO-P to **help the children in this community.**"

Stockton Unified leaders understood that to ramp up ELO-P quality programming, they needed to invest in their staff. In the last three years, they have paid staff to attend more than **90 hours of professional learning opportunities.**

Stockton's ELO-P Conferences leave Expanded Learning staff with "better insights, tools, and strategies that can be incorporated into [programming] in the future."

Field trips are an opportunity that is now open for students, which I really love. The smiles on their faces were priceless. We took students to [San Joaquin] Delta College for the "School Yard Rap Concert" and one of my students hugged me with tears in her eyes and said, **"That was the best day of her life"**.

TAREKA MCCLELLAN, BUSH ELEMENTARY
ELO-P PROGRAM SITE FACILITATOR

Region 6 saw an **1150%** increase in **access** to Expanded Learning Programs after the introduction of ELO-P funds.
